* towards individual sessions

Break the cycle of Stress and Thrive!

Did you know that accumulated stress decreases productivity, prevents access to competencies and destroys motivation? *And*, research shows that unmanaged stress is **six times** more predictive of cancer and heart disease than smoking, high cholesterol levels and high blood pressure! This one day seminar is intended for individuals who want to drastically reduce their stress level and optimize their effectiveness. In a small and interactive format, participants will receive individual attention and personalized advice. At the end of the workshop they will have an array of stress busters compatible with a full work day and a concrete plan to apply immediately.

Overview - Topics covered:

- Self Diagnostic: identify your **top stressors** and build a **personal shield against stress**.
- Understand the **3 toxic ways** that stress manifests and how to **prevent** them.
- Fight or flight: a 4 step process to **control your emotions**.
- **Heart coherence feedback** to restore **serenity** in any situation.
- Augment your **resistance** to stress with easy to practice **relaxation techniques**. Regain **mental clarity** and unleash your productivity. **Handouts and Guided Practice CD are included.**

Here is what some of our previous participants said:

"I am amazed at the results". "I got simple and advanced techniques that really work to dissolve stress and regenerate energy!". "I feel more confident". "I am motivated to keep a healthy pace". "Excellent facilitator, supportive, empathetic, dynamic and engaging!"

Your facilitator

Dr. Anne-Marie Derouault has trained over 400 business professionals and managers with **top satisfaction** rate.
